**Mailbox Number:**

*Christopher Lee Tobey*

**Case serial number:**  
09/657039  
**Class / Subclass(es):**  
705/8,22, 28, //  
**Earliest Priority Filing Date:**  
9/7/2000  
**Format preferred for results:**  
Paper  
**Search Topic Information:**

looking for a system and method for computer-related assets where:  
the asset is tagged with a barcode, the asset is moved from site A to site B by only going through a central site, and the following data is recorded - the location of the asset with respect to the central site, the exit of the asset from the current site, the intended destination of the asset. When the asset reaches its intended destination this information is verified based on a tag on the asset.

**Special Instructions and Other Comments:**

Please rush this search. I need the search for an allowance which I would like to finish this bi-week. Thanks, Carolyn

*RUSH!*

**The myth of "plug and play"**

Cooke, James Aaron  
Logistics Management & Distribution Report v37n8 PP: 98-100 Aug 1998  
ISSN: 1098-7355 JRNL CODE: LMDR  
WORD COUNT: 1374

...TEXT: pieces of business software that need the data for warehouse operations or inventory control.

Take the PC software product "Spreadsheet Simplicity" from Hand Held Products Inc. That package allows a PC operator to **take bar - code data** and **place that information** into an Excel spreadsheet. Anyone familiar with an Excel spreadsheet can set up a simple record-keeping system for inventory counts and item tracking. A scanner can read a **bar - code** symbol and **place the information** it reads into an appropriate column in a spreadsheet.

But Hand Held Products officials concede...

ABSTRACT: The new LANserver Plus from Bell Atlantic seems to be the first step in a truly functional central-office local area network (LAN) system, but it lacks speeds in comparison to other central-office networking schemes. The LANserver Plus is a VAX minicomputer located at the customer site for file service and print service on the customer LAN. The LANserver also brings more processing power down from the central office to the local customer site: it works as a file server to serve remote workstations through the central-office switch located at the telephone company. Bell Atlantic may eventually offer ISDN links, but it is initially offering users speeds up to 19.2K-bps. Bell Atlantic should bring in ISDN first to stimulate the customer demand. The superior speed offered by ISDN is needed by users to gain the fastest possible links between remote file servers.

No results were found for your search query.

You may want to try your search again after following one or more of these tips:

- Check the spelling of your search terms. Correct any misspellings and re-run the search.
- To broaden your search, use the Boolean operator OR. For example, type: Siamese OR cats.

See [hints](#) for suggestions.
